

- 1) On your iPhone goto settings
- 2) Mail, Contacts, Calendars
- 3) Select your email account.
- 4) Select your email.
- 5) Select SMTP (scroll down)
- 6) Select Primary Server
- 7) Turn SSL On and change server port to 587. You'll need to wait while it is Verifying (long time). Accept or OK any messages that might pop up.
